

Hills quarry products sites

We operate a network of quarries which between them provide customers with a comprehensive range of aggregates covering Wiltshire, Oxfordshire, Gloucestershire, Dorset and other neighbouring counties.

The sites are:

- **Upwood Quarry** - near Oxford
- **Tubney Wood Quarry** - near Oxford
- **Bowling Green/Chinham Farm Quarry** - near Faringdon
- **Shorncote Quarry** - near Cirencester
- **Calne Quarry** - near Calne
- **Woodsford Quarry** - near Dorchester

The Calne, Shorncote and Woodsford operations also include ready-mixed concrete plants.

These quarries are also able to supply a comprehensive range of aggregates – sand, gravel, limestone, ballast for concrete, decorative aggregates and screened topsoil. It means that we are an ideal source of aggregate for every need, from construction through to more specialised needs for end-uses such as sports and leisure applications, agriculture, landscaping and gardening.

Whilst several of the quarry sites are licensed for the tipping of inert materials, we also have dedicated facilities for disposal of hazardous and non-hazardous wastes through our sister company, Hills Waste Solutions Ltd.
