

## **Hills Quarry Products' current operations (as of 28 May 2020)**

The Hills Group's priority is to keep our employees, customers and community safe whilst ensuring that we continue to deliver products and services with minimal disruption, and comply with the latest Government advice on managing the risks of Coronavirus (COVID-19) including the five steps to safer working together.

Hills Quarry Products is maintaining its commitment to offer the highest quality of aggregates and ready mixed concretes to our customers. We are supplying our customers with limited disruption and continue to help serve critical supply needs, with the safety and well-being of our employees, subcontractors, customers and communities at the forefront of all our decisions.

There is an ongoing demand for aggregate and concrete from customers and we are slowly building our activities as this requirement grows.

We continue to monitor the impact of the COVID-19 pandemic and our Group board meets regularly to ensure our resilient business continuity plan reflects the unfolding situation.

If you have any queries please contact us via email at [info@hills-group.co.uk](mailto:info@hills-group.co.uk) and in the meantime, take care and keep safe.

**Peter Andrew**  
**Group director**  
**Hills Quarry Products**

### **The five steps to safer working together confirm that:**

- We have carried out a COVID-19 risk assessment and shared the results with the people who work here
- We have cleaning, handwashing and hygiene procedures in line with guidance
- We have taken all reasonable steps to help people work from home
- We have taken all reasonable steps to maintain a 2 metre distance in the workplace
- Where people cannot be 2 metres apart, we have done everything practical to manage transmission risk
