

6 January 2021

Hills Quarry Products' Coronavirus Business Continuity Statement

This update follows the Prime Minister's announcement of new national restrictions to combat the spread of the COVID-19 pandemic, effective from 6 January 2021.

The Government has identified the quarrying industry is essential to keeping the country operating and supporting the construction sectors, and Hills Quarry Products will remain open for business. Over the coming weeks we will continue to monitor the impact of the pandemic on our operations to ensure our business continuity plan reflects the changing situation.

All our workplaces and practices have been adapted to ensure they remain COVID-19 secure and we will continue to comply with Government guidance on managing the risks of COVID-19 including the five steps to safer working together. We have made arrangements for employees to work from home where their role permits.

Our priority remains to keep our employees, customers and the community in which we work safe, whilst ensuring that we deliver the highest quality of aggregates and ready-mixed concretes to our customers with minimal impact.

If you have any queries please contact us via email at info@hills-group.co.uk and in the meantime, take care and stay safe.

Peter Andrew
Group Director
Hills Quarry Products

The five steps to safer working together confirm that:

- We have carried out a COVID-19 risk assessment and shared the results with the people who work here
- We have cleaning, handwashing and hygiene procedures in line with guidance
- We have taken all reasonable steps to help people work safely from a COVID-19 secure workplace or work from home
- We have taken all reasonable steps to maintain a 2m distance in the workplace
- Where people cannot keep 2m apart we have ensured at least a 1m distance and taken all the mitigating actions possible to manage transmission risk.
